Lucas Santos

Fullstack Developer

Belo Horizonte, Minas Gerais, Brazil

lucas.s.sa@hotmail.com — +55 31 9 97556-4250 — linkedin.com/in/lucas-santos-1761828a

Summary

Fullstack Developer with over 6 years of experience building scalable, high-performing web applications and APIs. Skilled in React, Node.js, TypeScript, PostgreSQL, REST, GraphQL, and cloud platforms (AWS, Azure, Vercel). Strong background in frontend bug triage, localization, authentication systems, and data synchronization. Experienced in Agile teams, CI/CD pipelines, observability tools, and committed to type safety, testing, and clean code.

Technical Proficiency

- **Frontend:** React (6 yrs), Next.js (5 yrs), TypeScript (6 yrs), Tailwind CSS (6 yrs), Styled Components, HTML, CSS
- **Backend & APIs:** Node.js (6 yrs), Express.js (6 yrs), REST (6 yrs), GraphQL (1.5 yrs), API integration, Python
- **Databases:** PostgreSQL (6 yrs), Prisma ORM, data synchronization
- **Testing & Validation:** Jest, Playwright, Storybook, Unit Testing (5 yrs)
- **Security:** OAuth, JWT, SSL/TLS, XSS protection, CORS, Active Directory integration
- **State & Forms:** State management libraries, React Hook Form
- **Performance & Accessibility:** Lighthouse, a11y best practices, frontend performance tuning
- **Tooling & Workflow:** Git/GitHub/GitLab (7+ yrs), Yarn, Nx, Vercel, Docker, CI/CD pipelines, Agile (Scrum/Kanban), Ubuntu, VS Code
- **Observability:** Sentry (frontend SDK monitoring & error tracking)

Languages

English (Native), Portuguese (Native), Spanish (Intermediate)

Experience

iSeatz Oct 2025 – Oct 2026
Senior Frontend Engineer

- Led issue investigation and resolved user-facing frontend bugs within a complex multi-tenant monorepo architecture using Nx and Yarn.
- Managed localization and i18n validations, specifically troubleshooting locale UI rendering and HTML string formatting.
- Validated bug fixes and ensured release readiness using testing frameworks like Jest, Playwright, and Storybook.
- Investigated and resolved environment configurations and site-specific API rendering behaviors on Vercel deployments.

BairesDev May 2023 – September 2026
Software Engineer / React Developer

- Delivered fullstack solutions across industries (legal, agriculture, travel, marketing) using React, Next.js, TypeScript, Node.js, Express, Python, and PostgreSQL.
- Built robust frontend applications with React/TypeScript; applied Jest for comprehensive testing.

- Designed backend APIs and services; implemented Prisma ORM for efficient data access and schema management.
- Applied REST and GraphQL for seamless API integration and data synchronization.
- Deployed applications to AWS and Azure; ensured high availability, scalability, and secure authentication.
- Implemented CI/CD pipelines and Docker containerization; enhanced delivery consistency.

Hensall Co-op May 2024 – Oct 2025
Full Stack Engineer

- Built interactive UIs with React, TypeScript, HTML, and CSS; ensured robustness with Jest testing.
- Programmed backend logic and APIs using Node.js, Express.js, and Prisma ORM; managed PostgreSQL schema and queries.
- Developed automation endpoints for pricing; optimized queries with advanced filters such as *Assigned* status.
- Ensured consistent data synchronization across local and remote services.
- Applied strict type validation directly in function parameters, enforcing TypeScript safety.

DLA Piper Nov 2023 – May 2024
Fullstack Developer & Frontend Lead

- Led frontend development with React, Next.js, Context API, and Styled Components.
- Integrated Azure B2C authentication and authorization for enterprise-grade applications.
- Partnered with backend teams for PostgreSQL and Python integration.
- Improved deployments with Docker; deployed apps on AWS for scalability.

Fresh Tracks Canada Aug 2023 – Nov 2023
React Engineer

- Built travel planning apps using React and Next.js on AWS.
- Improved deployment pipelines with Docker, ensuring reliable environments.
- Contributed features to enhance personalization in customer booking experiences.

Red Ventures May 2023 – Aug 2023
Fullstack TypeScript & React Engineer

- Delivered frontend-first projects (80/20 split) using React, TypeScript, and Next.js.
- Built GraphQL-based features, optimized for SEO monetization.
- Integrated CMS-backed WordPress projects; ensured pixel-perfect UI with detailed CSS work.

MAXIMA Service Corporation Jun 2020 – Jun 2022
Junior Fullstack Engineer

- Built and maintained web applications and REST APIs using React and Node.js with Express.
- Integrated PostgreSQL and third-party APIs; ensured reliable data synchronization and CRUD operations.
- Expanded test coverage with Jest, reducing regression frequency and improving reliability.
- Enhanced API performance by optimizing Express middleware and queries.
- Contributed reusable React components across multiple projects; participated in Agile ceremonies and CI/CD pipelines.

CEBRAC - Centro Brasileiro de Cursos Jul 2014 – Feb 2016
English Teacher

- Taught students of varying proficiency levels, from beginner to advanced, with a focus on communication, grammar, and listening comprehension.

- Created lesson plans and assessments tailored to individual/group needs.
- Applied interactive methods (debates, role-play, multimedia) to improve retention.
- Monitored performance with regular evaluations; provided personalized feedback.

Instituto Mix Jul 2013 – Apr 2014
English Teacher

- Taught beginner and intermediate students with a focus on foundational grammar, vocabulary, and pronunciation.
- Prepared lesson plans and classroom materials; introduced interactive activities like role-play and listening drills.
- Adapted teaching strategies for struggling students; ensured strong certification completion rates.

Três Jota Soluções Visuais Oct 2010 – Sep 2012
Graphic Designer

- Designed graphic content under tight deadlines using CorelDraw and Photoshop.
- Built time management and creative problem-solving skills while working under pressure.

Education

Universidade Federal de Ouro Preto
Studied Computer Science (2016–2022)

Universidade Presidente Antônio Carlos
Studied Computer Engineering, Mechatronics/Robotics/Automation (2015–2016)

Certifications & Training

React (RocketSeat), Node.js (RocketSeat), JavaScript & TypeScript (Codecademy), SQL, Java, AutoCAD (Future Center)

Additional Information

Portfolio: lucassantossa.github.io/myPortfolio/
Personal Traits: Leadership, analytical thinking, creativity, excellent interpersonal skills.
